REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art neither teaches or suggests a method for treating Parkinson's disease comprising applying an iontophoretic device which comprises a compositions comprising a rotigotine and at least one chloride salt selected from the group consisting of triethylammonium chloride or tributylammonium chloride or any other chloride salt.

The closest prior art is Muller et al. (US Patent 6,884,434) in view of Panchagnula et al. (Curr Op Chem Biol 2000, 4:468-473) and Suzuki et al. (US Patent 6,416,503). Muller et al. teach a transdermal therapeutic system comprised of rotigotine used for the treatment of Parkinson's disease; however Muller et al. does not teach the use of an iontophoretic device for transdermal administration. Panchagnula et al. teach that iontophoretic transport involves the movement of molecules across the skin and Suzuki et al. teach iontophoretic drug devices that contain sodium chloride. However, none of the above references teach the drug rotigotine delivered iontophoretically with the addition of a chloride salt.

Applicants have pointed out (in the specification on page 7, fourth paragraph) that the addition of chloride salts reduces the solubility of rotigotine; therefore, one would expect low flux of rotigotine in the presence of chloride salts. However; Applicants have shown that triethylammonium chloride (TEACl), tributylammonium chloride (TBACl) and sodium chloride (NaCl) are not bioequivalent and show in Examples 2 and 3 of the specification that the addition of TEACl and TBACl result in higher fluxes of rotigotine. It is also of note that Panchagnula teaches that

iontophoresis is primarily used for the delivery of large and charged molecules; however, rotigotine is not a large and charged molecule and would not be expected to be useful in an iontophoretic device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
